

MYBUTLER LAPTOP

[Home](#) / [Admissions](#) / [MyButler Laptop](#)

A PROGRAM DESIGNED TO PLACE TECHNOLOGY INTO STUDENTS' HANDS TO ENSURE THEY THRIVE IN A DIGITAL ECONOMY.

HOW IT WORKS

Lenovo laptops are available on a first-come, first-served basis to students enrolled in at least 9 credit hours.

Students may register in the MyButler Laptop program for a \$150 fee. Butler's partnership with [Ribbit Computers](#) provides an extended 3-year service agreement on the device. The laptop becomes the personal property of the student and is not returned to the college.

PROGRAM ELIGIBILITY

- Any Butler student enrolled in 9 credit hours or more
- Students must remain enrolled for 3 semesters or a termination fee will be applied to the student account.
- MyButler Laptop is designed to roll into financial aid packages as applicable.

LAPTOP SPECIFICATIONS AND FEATURES

The Lenovo laptops are configured to accommodate the vast majority of academic needs for Butler students including Microsoft Office (free for all Butler students) and access to Canvas. However, students that are in specialized graphic-intense courses will want to look for a computer that is designed and configured for those applications.

The Lenovo V14 laptop has a 14" screen, a webcam, an AMD 2.4GHz processor, 8GB of system memory, a 128GB solid state drive, and will run the Windows 10 operating system.
